VISITORS ARE ALWAYS WELCOME

HOW WE SHIP—It is best to have plants sent by express, purchaser paying charges. If parcel post shipment is preferred, please add 10 per cent of the purchase price to cover postage.

We guarantee to send out strong live roots and plants, so that with ordinary care in planting and watering every one should grow. We cannot be responsible after they have reached our customer in good condition. There are so many conditions over which we have no control, such as poor soil, lack of proper care and water, also weather conditions. As one nursery man writes, Plants, trees or shrubs are a living organism, such as a cow, horse or a man. It drinks and feeds and is liable to attacks of disease and insect.
